

# PARK HILL JUNIOR SCHOOL

Monday 16th September 2024

Dear Families,

Please find information below about the home learning at Park Hill Junior School for each year group. There are slight differences between the year groups as children become more independent and in preparation for their transition to secondary school.

## **All year groups**

All children in the school are expected to complete the following:

- Daily reading which they record in their school planner
- Athletics activities every week which links to their maths learning in class: <https://login.mathletics.com/>
- Learn their weekly spellings (the list is found in their planner and they can practise on EdShed) <https://www.edshed.com/en-gb/login/school>
- If they are not confident with their times tables, children should also use TTRS to practise them: <https://play.ttrockstars.com/>

**The children should have received their logins for the above websites.**

**It is also expected that the children's planners are signed by an adult every week.**

## **Year 5**

In Year 5 the children will complete the above, plus in the summer term they will have weekly arithmetic and weekly comprehension/grammar home learning which they will mark with their teacher in class. This will be posted on their Google Classroom or hard copies are available in class for those who need it.

## **Year 6**

In Year 6 the children will complete the above, plus they will have weekly arithmetic and weekly comprehension/grammar home learning which they will mark with their teacher in class. This will be posted on their Google Classroom or hard copies are available in class for those who need it.

Mrs Ann Pratt, Headteacher

Park Hill Junior School, Stanhope Road, Croydon, CR0 5NS.  
Telephone: +44 (0)20 8686 8623 | Email: [office@parkhilljunior.co.uk](mailto:office@parkhilljunior.co.uk) | W: [www.parkhilljunior.co.uk](http://www.parkhilljunior.co.uk)

To promote the children's curiosity around certain subjects and themes and to link with their learning in class, the teachers will suggest that the children complete additional home learning as appropriate. This could include researching a particular country or an important historical or scientific figure plus other research opportunities which can then be shared with the class to further everyone's learning and understanding of their current class themes. Children can be as creative as they want to with this, either writing facts, creating models of things they have researched or using google docs or slides to record their research.

If you need any support with Home learning please speak to your child's class teacher or their Phase Team Leader.

Thank you for your support,  
The Park Hill Junior School Leadership Team.
